SAVOY
SEYCHELLES
resort & spa

Hello friend,

My name is Mr. Geckoman. I would like to welcome you to Seychelles and Savoy Resort and Spa. I hope that you are up for some challenges, since I have prepared plenty of them. In this booklet you will find all kind of tasks to increase your knowledge about Seychellous animals and challenge you. Each task has its own level of difficulty, for example,  - the easiest task, and  - the most difficult one.

For each successfully completed task you will get a sticker  which you can stuck to a designated circle located in the corner of each page. When you complete all tasks, I will have something special for you. Enjoy!

To successfully complete all tasks, you will need to know some information about Savoy Resort and Spa. The hotel is located in Beau Vallon Bay, on the edge of the most popular beach of Mahe Island. A swimming pool of 700 sq. m can be found in center of the resort, and it is the biggest one in the Seychelles. The hotel has 163 guest rooms of various categories. We have 3 restaurants in the resort: Grand Savoy (main restaurant), Pescado (seafood restaurant), and Gecko Bar (International restaurant).

The Seychelles is an archipelago of 115 islands located in the East Africa. The islands were claimed by France in 1756, but they remained uninhabited until the first settlers arrived on August 27, 1770. The Seychelles is located in the Indian Ocean and it is home to numerous beaches. Seychelles has a has a rich variety of plants, animals, birds, and marine life. It is home to uncountable animals, such as lizards, Aldabra giant tortoises, Seychelles black parrots, fruit bats, flying foxes, and tree frogs. Coco de Mer is a national fruit of Seychelles and it translates as “coconut of the sea”. It can be found only on 2 out of 115 islands and its seed is the largest in the World.
