WHAT'S NEW FOR SUMMER 2026

Since 2019, our property has been welcoming guests with dedication and high service standards. The most comprehensive renovation was completed in 2022, during which all public areas and the main building rooms were fully renewed.

For the 2026 summer season, we are planning several significant enhancements designed to elevate our guest experience even further. The key improvements include:

- A full renovation of our 140 garden rooms, redesigned with a modern and minimalistic approach to offer a more comfortable and stylish stay.
- A strengthened service and concept structure, ensuring higher quality and consistency. In this regard, even the beverage brands we serve will be clearly defined and guaranteed, preventing any surprises for our guests.
- Enhanced food & beverage and service quality, supported by upgraded and improved outlet areas to deliver an elevated gastronomic experience.

GARDEN LARGE ROOM

GARDEN ROOMS

All our newly renovated rooms feature a clean, minimalist design and offer either pool or garden views. The updated room inventory includes:

- 80 Garden Standard Rooms (20–32 m²)
- 18 Garden Large Rooms (32–33 m²)
- 42 Garden Family Rooms (34–39 m²)

MAIN BUILDING SIDE SEA VIEW ROOMS

Following the full renovation completed in 2022 and the additional improvements made each year, all of our rooms now offer side sea views. Some selected rooms provide a unique panorama where guests can enjoy the sea and the pool simultaneously, framed by the majestic Taurus Mountains.
