Sustainability

Earth. The place we humans call home. You already know, but our planet is in need of some tender love and care. With our 'Together You'll love' experiences. Tamassa not only guarantees a wide range of fun-packed activities but also promises guests to offset their carbon footprint with 'Together You'll love how we take care of our planet' green initiatives.

Our care comes in many forms: beach clean-ups, waving goodbye to plastic, tending to endemic plants, tree- planting & cultivating our herb garden.

And getting together with like-minded people, such as the local NGO EcoSud to train marine guides that will be taking customers on underwater adventures for educational purposes.

To preserve our lagoon, we've so far put the concept of zoning into place, which limited the passage of motorized boats in certain sectors. Now, we decided to take it a step further! Our goal: Transforming the Bel Ombre lagoon into a motorsport-free zone to preserve healthy corals and help damaged ones to recover
